

Kernel5 - Feature #514

Feature # 506 (Closed): Android port of the Scol VM

Clean the scol vm sources from winapi dependent functions and variables

03/30/2015 04:53 PM - brainsandwich

Status:	Resolved	Start date:	03/30/2015
Priority:	Normal	Due date:	
Assignee:	brainsandwich	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Scol Voyager 7.0	Spent time:	0.00 hour
Description			
<p>In order to prepare for the Android port, sources in vm/kernel5 should not rely on Windows API, or have an alternative for non-windows OSes.</p> <p>By priority, if possible, winapi calls should be replaced by :</p> <ul style="list-style-type: none">- standard c++- boost <p>If there's no standard or boost equivalent for a function, define (#ifdef WIN32) an alternative function for other OSes.</p>
